

Underpasses Advocacy:

Enhancing public access throughout the parklands is central to the Charles River Conservancy's mission. Since 2006, the Conservancy has advocated for a pedestrian/bicycle underpass to be included on the Boston side of the Anderson Memorial Bridge. The Anderson Bridge Underpass overcame a major hurdle in December 2016 when the Mass. Historical Commission (MHC) ruled that they accept the "adverse effect" of constructing an underpass and gave MassDOT authorization to proceed with the design process. The underpass also has the support of DCR and the City of Boston. With an MOU between MassDOT, MHC and a large coalition of supporters that includes the Conservancy, the project is now moving into the final steps of design.

Tree Advocacy: Greenough Boulevard

The Conservancy has partnered with DCR to offer watering along Greenough Boulevard and deep root fertilization for trees within the lower basin's urban parklands.

Magazine Beach:

Magazine Beach is a 15-acre park in Cambridge, featuring a historic granite "powder house," which was built in 1818 as a state gunpowder magazine. The building was first redeveloped in 1899 by Olmsted & Eliot as a bathhouse to accommodate a lively swimming scene at Magazine Beach. Today, the Powder House is yet again being reimaged as a visitors center and concessionaire space. The Conservancy regularly hosts volunteer events at Magazine Beach and helps advocate for projects in partnership with the Cambridgeport Neighborhood Association.

Future Swim Park:

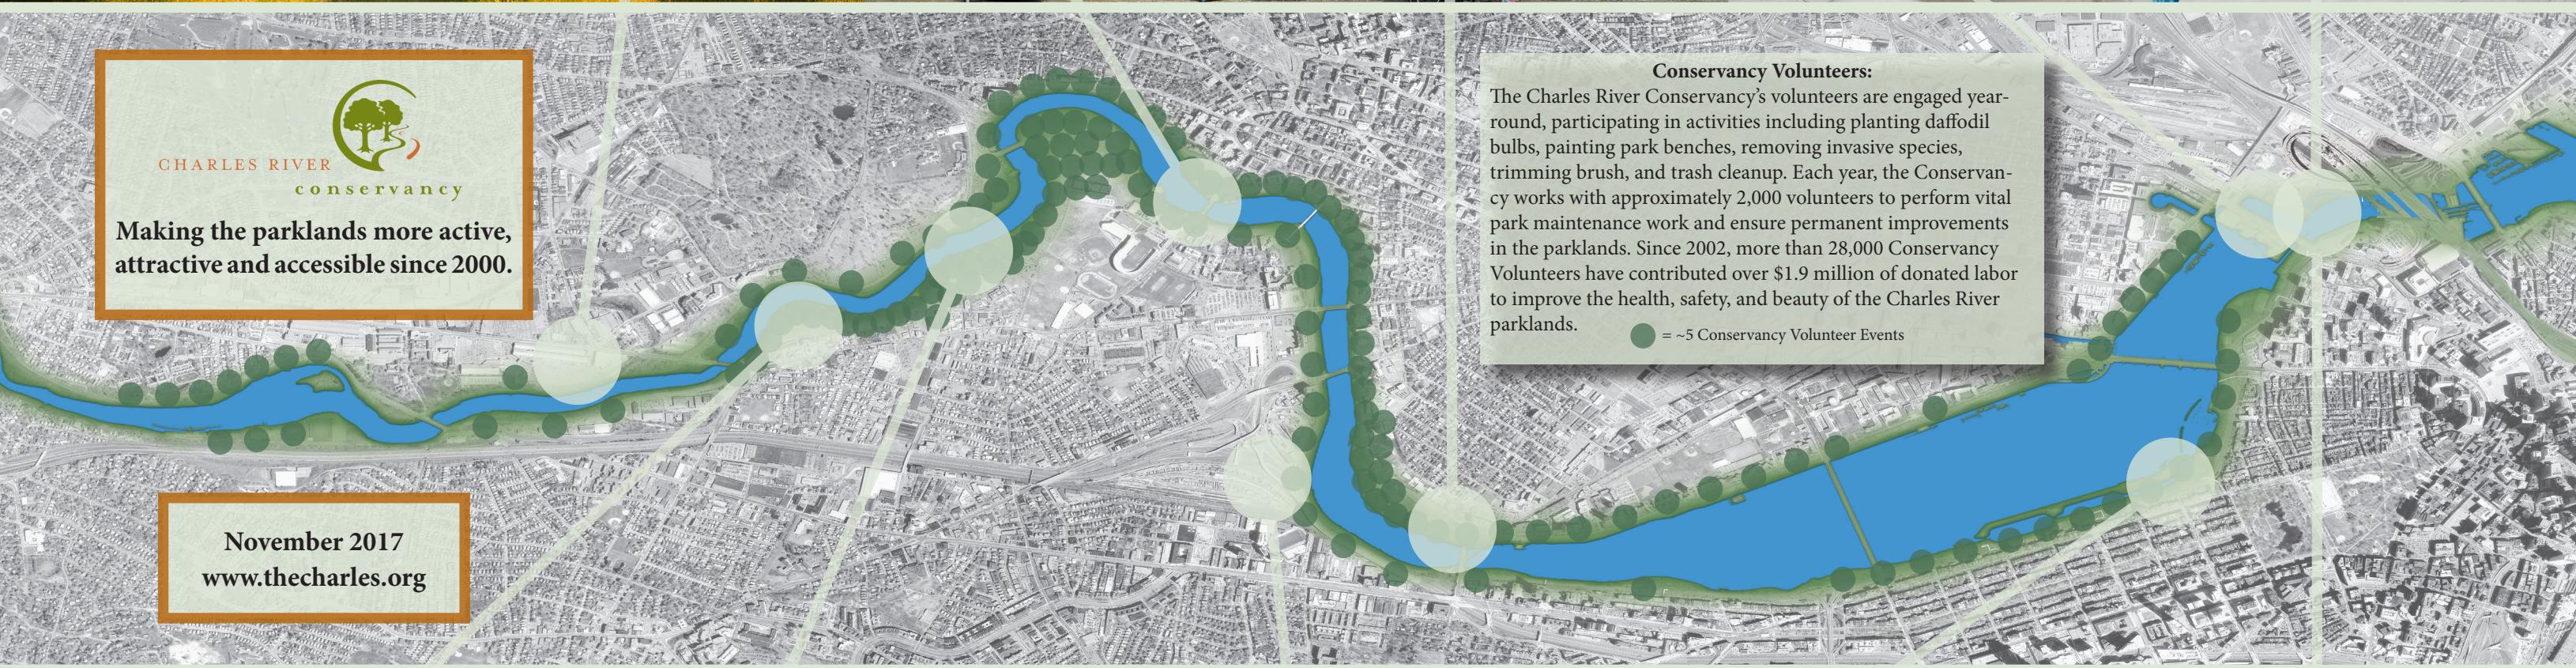

The Conservancy is working to return swimming to the Charles River through a safe, fun, and accessible permanent swimming facility in the Charles River to be enjoyed by everyone. The Conservancy wants to celebrate the environmental success of the Charles River's significant turnaround and encourage people to stay tuned into the river's ongoing health—we believe swimming is the best way to do this.

The Lynch Family Skatepark: The 40,000-square-foot Lynch Family Skatepark, adjacent to North Point Park, has been a major capital project of the Charles River Conservancy. Construction began in the spring of 2015 and on November 14, 2015 the Lynch Family Skatepark opened to a 2,500-person crowd. The skatepark has been turned over to the CRC's project partner, DCR, who manages the public facility.

November 2017
www.thecharles.org

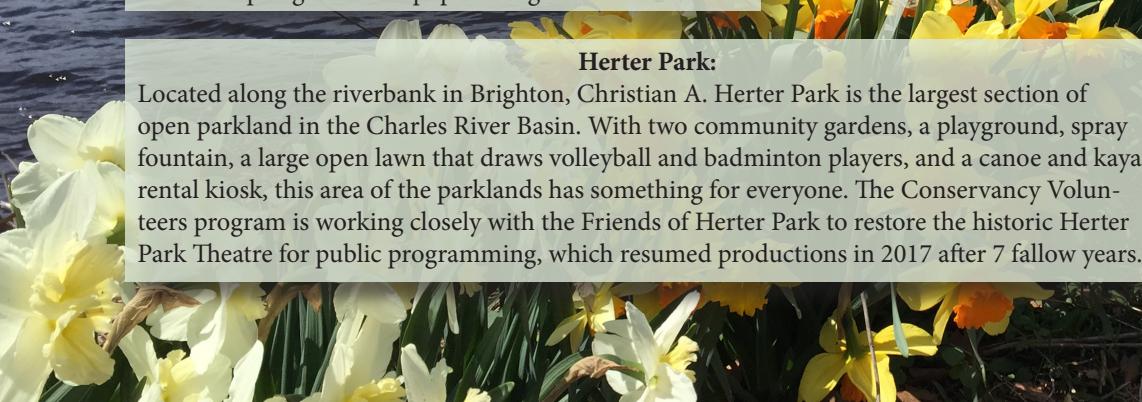

Daffodils:

Started in 2010 to celebrate the Conservancy's 10th Anniversary, volunteers planted 10,000 bulbs along the river's banks. This has become an annual tradition, with the Conservancy's volunteers planting daffodils each fall to welcome springtime with pops of bright cheerful color!

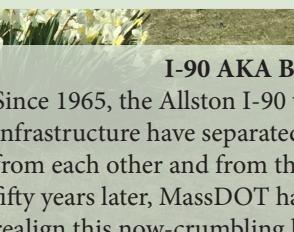

Herter Park:

Located along the riverbank in Brighton, Christian A. Herter Park is the largest section of open parkland in the Charles River Basin. With two community gardens, a playground, spray fountain, a large open lawn that draws volleyball and badminton players, and a canoe and kayak rental kiosk, this area of the parklands has something for everyone. The Conservancy Volunteers program is working closely with the Friends of Herter Park to restore the historic Herter Park Theatre for public programming, which resumed productions in 2017 after 7 fallow years.

I-90 AKA Beacon Park Yards:

Since 1965, the Allston I-90 viaduct and surrounding road infrastructure have separated communities and individuals from each other and from the Charles River parklands. Nearly fifty years later, MassDOT has begun the process to replace and realign this now-crumbling highway—a \$500M reconstruction! This 100 acre project is a "once in a century" opportunity to transform the Charles River parklands along the Mass Pike and between the BU and River Street Bridges. MassDOT has already proposed moving Soldiers Field Road away from the river. Neighborhood and transit advocacy groups, including the Conservancy, are pushing MassDOT to include cycling/pedestrian connectivity, public transit improvements, and enlarged parklands as part of the project's scope.

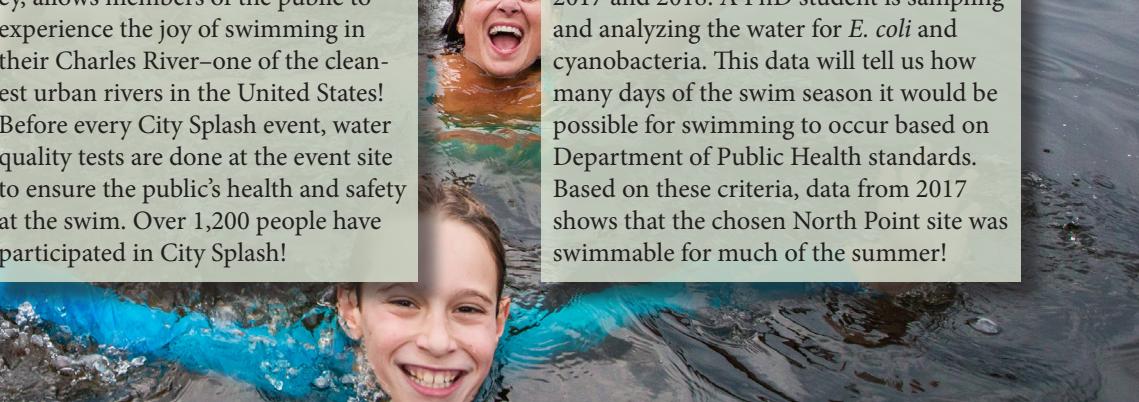

City Splash:

City Splash is the exciting opportunity to safely swim in the Charles River! The annual state-sanctioned community swim, hosted by the Conservancy, allows members of the public to experience the joy of swimming in their Charles River—one of the cleanest urban rivers in the United States! Before every City Splash event, water quality tests are done at the event site to ensure the public's health and safety at the swim. Over 1,200 people have participated in City Splash!

Water Quality: The Conservancy is partnering with Northeastern University to conduct daily water quality testing at the proposed swim site at North Point Park during Summer 2017 and 2018. A PhD student is sampling and analyzing the water for *E. coli* and cyanobacteria. This data will tell us how many days of the swim season it would be possible for swimming to occur based on Department of Public Health standards. Based on these criteria, data from 2017 shows that the chosen North Point site was swimmable for much of the summer!

THANK YOU

We are grateful to you our generous donors for making our work possible. Below are donations made during our 2016 and 2017 fiscal years (October 2015 through September 2017). To be listed as a 2018 supporter, donate at www.thecharles.org or send your check to the Charles River Conservancy at 43 Thorndike Street S3-3, Cambridge, MA 02141. Thank you.
